Highlights

Bitcoin Usage Up Thanks to Retail Sector Solutions

- BitPay Facilitated over \$1B worth of cryptocurrency
- Coinbase (who looks to build out their merchant initiatives in 2020) did \$135m in the same time
 - *"In 2020, we're hyper-focused on providing a complete merchant experience with business features and insights, better serving other geographies with internationalization, adding more currencies, and building seamless integrations that leverage other Coinbase products,"* Coinbase Commerce lead Sahil Amoli
- Lightning Network
 - Fold (shopping app) processed 2000+ purchases during holiday 2019 with Bitcoin's notably improved network
 - Amazon, Starbucks and Sephora among most gifted brands
 - Zap (payments app) begins processing US dollars using the network
- BitPay transaction data suggests bitcoin buyers will typically buy jewelry, precious metals and high-end tech products
 - This could allude to the target demographic or simply the anonymous nature being preferred in these areas

Notes

Bitcoin price has pumped to 9700USD, Warren Buffet spoke with TRON CEO. It was a good week for speculation.

Few staking coins popped. I converted coins to BTC keeping them at minimum for staking reward

Acquired more staking coins (THETA and NEO)

More in the News...

[Trezor Wallet Disappoints Hodlers](#)

- Method for extracting and cracking seed phrased from Trezor models One and T software
 - Approx. 15 mins in reported hack
 - Vulnerability made possible due to microcontroller found commonly in the device
- This attack was previously displayed on the KeepKey wallet
- Concerns of the chip family being jeopardized
 - Trezor identified the issue in March 2019 with KeepKey, but pointed out the complexity of the attack itself instead of solving it by doing a recall

[Crypto Adoption Mimics Internet's Adoption Rates of early 00's](#)

- Claim made by Deutsche Bank in a recently published research paper
- Metric is based on the growth in blockchain wallet users
 - By this number, users are expected to be slightly less than rate of Internet users
 - *"the Internet saw around 500 million users after eight years of its existence, yet cryptocurrency adoption numbers are roughly ten times smaller during the same timeframe—approximately 50 million."* (Deutsche Bank Official)
- Prediction of 300M users by the 25 year mark (2034?)
- Doesn't take into account the Chinese gov't or Goggle, or Amazon or Facebook. These factors are listed as exponential catalysts for the adoption of digital currencies
